

ALC 2018

11th African Laser Centre Student Workshop

22 November - 24 November 2018
Stellenbosch, South Africa

LOCAL ORGANIZING COMMITTEE:

Dr Gurthwin Bosman (SU)
Prof Andrew Forbes (WITS)
Dr Pieter Neethling (SU)
Prof Erich Rohwer (SU) (Chair)
Prof Hendrik Swart (UFS)
Prof Ernest van Dyk (NMMU)

René Kotzé (secretariat)

The purpose of the symposium is to bring together ALC grant holders and partners from across Africa, and students at South African Universities who are working in the various ALC sponsored projects. The workshop programme is designed to facilitate student presentations and interaction with project leaders. Time is allocated for getting to know one another and to exchange ideas and to share knowledge. The format of the workshop will be as follows:

- ✓ Each project leader will have the opportunity to introduce the project, followed by a student presentation (Total time allowed 20 minutes)
- ✓ Additional project presentations in the form of posters
- ✓ A limited number of rental pool student presentations will also be accommodated
- ✓ Three keynote speakers will also address delegates

The conference venue is STIAS in Stellenbosch. The fact that the workshop is limited to ALC associated researchers and students, will encourage interaction between grant holders and students.

Registration Deadline: 1 Augustus 2018
